Himaksh Sharma

+91 9805408114 | himaksh009@gmail.com | linkedin/Himaksh Sharma | github.com/Himakshsharma

Education

SRM Institute of Science and Technology — Ghaziabad, Uttar Pradesh, India
B.Tech, Computer Science and Engineering (AI & ML) | CGPA: 7.59 — *2023 – 2027*

Sri Guru Harkrishan Public School, Sector 40-C — Chandigarh
Senior Secondary (CBSE, Class XII) | 66% — *2023*

Shemford Futuristic School, Himshikha — Pinjore, Haryana
Secondary (CBSE, Class X) | 81.33% — *2021*

Experience

Ancorotti Cosmetics India Pvt. Ltd. — Baddi, Himachal Pradesh
SAP Intern (On-site, 3 Months) — *Sep 2026 – Present*

- Executing **SAP ERP** transaction codes (T-codes) across enterprise business modules.
- Mapped **business process workflows** and maintained cross-functional master data with strict confidentiality.

RineX — Remote
Java Developer Intern — *Oct 2023 – Nov 2023*

- Built mini **Java** applications using **OOP** (inheritance, polymorphism, exception handling) in IntelliJ IDEA.

Projects

AROGYA – Two-Way Indian Sign Language Doctor–Patient Assistant | View Project

- Built an **accessibility** app letting deaf, blind and speech-impaired patients consult doctors in Hindi/English: speech becomes **Indian Sign Language (ISL)** via a **Three.js** 3D avatar (85 clinical signs).
- Developed in-browser **sign recognition** from **MediaPipe** keypoints using an **LSTM** (AI4Bharat INCLUDE, exported to **ONNX**) plus **DTW** one-shot learning of new signs.
- Built real-time consultation rooms over **WebSockets** with **JWT** auth; **CI/CD** with GitHub Actions (pytest, Playwright) and **Docker** on **Render**.
- **Tech Stack:** Python, FastAPI, React.js, Three.js, MediaPipe, TensorFlow, ONNX, WebSockets, JWT, Docker

LAWTRACE – RAG Legal Research Assistant for Indian Law | View Project

- Built a **RAG** legal assistant on the Constitution, BNS, BNSS, BSA and other Acts that cites the exact section for every answer, supports **Hindi/Hinglish** and maps IPC/CrPC to BNS/BNSS.
- Designed **hybrid retrieval** (**BM25** + **TF-IDF**) with rank fusion and reranking, achieving **96% top-1 accuracy** and **MRR 0.98** on a 56-question evaluation set.
- Added **hallucination guardrails** (off-topic refusal, citation verification); shipped 9 features incl. clause simplifier and risk checker with **35 automated tests**.
- **Tech Stack:** Python, Streamlit, scikit-learn, Gemini API, BM25, TF-IDF, LLM, NLP

SPLICE – AI Jump-Cut Video Editor | View Project

- Built a full-stack **AI** video editor that removes dead air from talking-head videos using **OpenAI Whisper** speech-to-text and **NumPy** silence detection, rendering cuts with **MoviePy** and **FFmpeg**.
- Developed a **FastAPI** REST API with worker pool, **SQLite** job store and rate limiting; **React + TypeScript** UI with a Three.js 3D audio view; **85+ pytest** tests, **Docker**, CI on GitHub Actions.
- **Tech Stack:** Python, FastAPI, OpenAI Whisper, NumPy, MoviePy, FFmpeg, React.js, TypeScript, Docker

Technical Skills

Programming Languages: Python, Java, JavaScript, TypeScript, SQL
Web Technologies: React.js, FastAPI, Streamlit, REST APIs, WebSockets, JWT, Three.js, Tailwind CSS, HTML, CSS
AI / ML & Data: RAG, LLMs (Gemini), NLP, TensorFlow, ONNX, MediaPipe, LSTM, Computer Vision, scikit-learn
Databases & DevOps: PostgreSQL, MySQL, SQLite, Docker, GitHub Actions (CI/CD), Render, Vercel, Git, GitHub
Testing & Tools: pytest, Vitest, Playwright, NumPy, Pandas, SAP ERP, IntelliJ IDEA, VS Code
CS Fundamentals: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks

Achievements & Certifications

- Runner-up, Parliamentary Debate (Kalamgiri) | Certifications: Full-Stack Web Development – Dr. Angela Yu (Udemy); Python – HackerRank
